SURE RED

RED DUST, PINDAN & MINERAL DEPOSIT CLEANER

Surekleen Sure Red is a concentrated acidic cleaner designed to remove red dust (Pindan), iron stains, lime scale, and corrosion from vehicles, machinery, and other equipment. It uses a safer, effective combination of surfactants, organic acids, and organic acid salts to clean metal, glass, paint, and other surfaces without relying on harsh acids like hydrochloric or sulphuric acid. The product is water-based, solvent-free, and biodegradable, making it suitable for industrial and commercial use.

Effective Cleaner: Removes red dust (Pindan), iron stains, brake dust, calcium (lime) scale, and corrosion from various surfaces such as metal, glass, paint, aluminium, and stainless steel.

Concentrated Formula: Can be used neat or diluted depending on the application, providing cost-effective cleaning.

Non-Hazardous Acids: Free from hydrochloric, sulphuric, and hydrofluoric acids, using organic acids for effective, safer cleaning.

Highly Versatile: Can be used on vehicles, machinery, and equipment, including rims and painted surfaces.

Environmentally Safe

Overall, it is considered environmentally safer than harsher industrial cleaners

Cleaning Efficacy

Sure Red is highly effective in removing red dust (Pindan) and other mineral deposits from surfaces. Its combination of organic acids and surfactants makes it suitable for removing iron stains, lime scale, and corrosion from a variety of surfaces, including metals and painted surfaces. The product is versatile and can be diluted for different cleaning applications, making it a powerful and flexible cleaner for industrial use.

Personal Safety

Sure Red can cause skin and eye irritation and requires the use of protective equipment, including gloves and safety glasses, during handling.

Transport Safety

Sure Red is not classified as dangerous goods for road, rail, sea, or air transport. It can be transported safely under normal conditions without special handling or labelling requirements.

SURE RED

RED DUST, PINDAN & MINERAL DEPOSIT CLEANER

DIRECTIONS FOR USE:

For Red Dust Remover, here are the recommended dilution rates and cleaning instructions for various specific applications:

1. Removing Red Dust (Pindan) and Iron Stains:

- Dilution Rate: Use undiluted for tough stains or dilute up to 1:50 with clean water for general cleaning.
- Cleaning Instructions:
 - a. Surface Preparation: Ensure the surface is dry before applying the product.
 - b. Application: Apply the solution directly to the red dust or iron stains using a brush, roller, or sprayer.
 - c. Wait Time: Allow the product to sit for 5-10 minutes to penetrate the stains.
 - d. Scrubbing: Use a stiff brush if necessary to loosen tough deposits.
 - e. Rinsing: Rinse thoroughly with clean water to remove the product and loosened contaminants.
 - f. Reapplication: If necessary, repeat the process for particularly stubborn stains.

2. Lime Scale and Corrosion Removal:

- Dilution Rate: Use undiluted for heavy deposits or dilute 1:10 to 1:50 for lighter cleaning.
- Cleaning Instructions:
 - a. Surface Preparation: Ensure the surface is clean and dry.
 - b. Application: Apply the product directly to the lime scale or corroded area using a sprayer, brush, or roller.
 - c. Wait Time: Allow the product to sit for 5-10 minutes to break down the deposits.
 - d. Scrubbing: Use a brush to agitate and remove the deposits.
 - e. Rinsing: Rinse thoroughly with water to remove the product and debris.
 - f. Post-Treatment: If any residue remains, wash the area with Surekleen Power diluted at 1:50 and rinse again.

3. Cleaning Painted or Metal Surfaces (Including Vehicles and Machinery):

- Dilution Rate: Dilute 1:50 for general cleaning of vehicles, machinery, and equipment.
- Cleaning Instructions:
 - a. Surface Preparation: Make sure the surface is dry and free from loose dirt.
 - b. Application: Apply the diluted solution using a sprayer, brush, or roller.
 - c. Wait Time: Allow the product to sit for a few minutes to dissolve dirt and dust.
 - d. Scrubbing (Optional): Lightly scrub the surface to remove stubborn dirt if necessary.
 - e. Rinsing: Rinse the entire surface with clean water from top to bottom to ensure a streak-free finish.

4. Brake Dust and Rim Cleaning:

- Dilution Rate: Use 1:10 to 1:50 dilution depending on the level of soiling.
- Cleaning Instructions:
 - a. Application: Spray the product directly onto rims and brake dust deposits.
 - b. Wait Time: Let the product sit for 5 minutes to break down brake dust and grime.
 - c. Scrubbing: Use a soft brush to scrub the rims.
 - d. Rinsing: Rinse thoroughly with water to remove all residue.

5. General Surface Cleaning:

- Dilution Rate: Dilute 1:50 for regular maintenance and light surface cleaning.
- Cleaning Instructions:
 - a. Application: Apply the diluted product using a sprayer or mop to the surface.
 - b. Wait Time: Allow the product to sit for a few minutes to break down surface dirt.
 - c. Rinsing: Rinse thoroughly with clean water or wipe the surface with a damp cloth.

General Notes:

- Test Before Use: Always perform a compatibility test on a small, inconspicuous area before applying the product to large surfaces.
- Avoid Pooling: Ensure the product does not pool on the surface, as excess acid residue can cause damage.
- Rinsing: Always rinse thoroughly after cleaning to remove any remaining acidic residue.
- Environmental Precautions: Avoid releasing the product into waterways, as it may pose hazards to aquatic environments.

By following these dilution rates and instructions, Red Dust Remover will effectively clean and remove contaminants from a variety of surfaces.

Safe Handling & Storage Instructions

Safety Information:

Surekleen Sure Red is classified with the following hazards:

- Skin Corrosion/Irritation: Category 2
- Serious Eye Damage / Eye Irritation: Category 2

Precautions:

- Always wear protective gloves, eye protection, and suitable protective clothing when handling the product.

Packaging:

Sure Red is available in various packaging options to suit different operational needs. Please consult the Safety Data Sheet (SDS) for detailed handling and storage instructions.

Technical Data

Appearance:	Colourless liquid
pH (neat):	2.0 - 2.5
Odour:	Slight Surfactant Odour
Specific Gravity @ 20°C:	1.105 - 1.115
